Sept. 04	Chairman, Medical Records Committee Memorial Hermann Memorial City Hospital
Sept. 04	Medical Executive Committee Memorial Hermann Memorial City Hospital
March 05	Performance Improvement Committee Memorial Hermann Memorial City Hospital

Exxon Mobil Bloodborne Pathogen (BBP) Crisis Project:
Emergently (12 hours) created and managed a comprehensive corporate medicine response to hundreds of XOM employees potentially exposed to BBPs through contaminated influenza vaccine injection cross-shared needles – through lectures, written materials, and project-specific website launch (all over a 48hr. period).

Then organized proper arms-length (from company) mass BBP lab sceening and follow-up counseling on positive reports over the subsequent 3 months. As a result, employee panic was avoided and there were no lawsuits, to our knowledge, against the company for medical or personal-injury negligence. BBP positives were handled optimally without implication of the company (since there was no XOM causation established dut to methodology set-up by Dr. Rensimer).

PROFESSIONAL ACTIVITIES/APPOINTMENTS (continued)

Oct. 05	Medical Staff Bylaws Committee Memorial Hermann Memorial City Hospital
March 06	Medical Informatics Committee Memorial Hermann Memorial City Hospital
Nov. 06	Town & Country Hospital/Stealth Limited Partners Hospital Venture Transition Committee
